

What to expect as the new Goodman Community Center opens

We will be adjusting our schedule as we figure things out in our new home. Our first priority is to have our current programs for children, teens and seniors up and running smoothly, so new spaces and programs will open to the public in October — sometimes on a limited basis. We will expand hours as soon as we have staff and systems to manage them. Please be patient — we are as anxious to have everything open and available to the community as you are!
